Personalized Recommendations

Based on your performance, we recommend focusing on the following areas:

1. **Continue strengthening your core competencies** - Your demonstrated skills show solid foundation
2. **Practice articulating complex concepts** - Work on explaining technical topics clearly
3. **Expand knowledge in identified weak areas** - Review topics where scores were below 70%
4. **Mock interviews** - Continue practicing with our AI interview platform
5. **Personalized learning paths** - Follow the customized course recommendations
